

## Automating safe environments for mobile machinery

TTControl is a leading supplier in the field of safety controls, displays and connectivity solutions for mobile machinery. TTControl boasts a broad experience regarding commercial production projects in the domain of electronic control systems for mobile machinery that rely on their equipment to function under the most difficult environmental conditions. TTControl follows a factoryless business concept and cooperates with premium European electronic manufacturers such as Continental and Katek or Zollner.

TTControl is a joint venture of the TTTech Group and HYDAC International, uniting two leading technology partners for the mobile machinery market. The TTTech Group is globally oriented and formed of high-tech companies providing leading real-time networking platforms and safety controls, while HYDAC International works with well-known global customers on projects requiring fluid technology in connection with hydraulics, electronics and engineering. TTControl is headquartered in Vienna, Austria and in Brixen, Italy and has access to a global sales network thanks to the HYDAC and TTTech Group offices worldwide. Including contractors and freelancers, more than 130 employees are working for TTControl.

TTControl facts	
<b>Founded</b>	2001
<b>Headquarters</b>	Vienna, Austria and Bressanone/Brixen, Italy
<b>Employees</b>	> 130
<b>Executives</b>	Franz Josef Eckle (HYDAC) Georg Kopetz (TTTech) Manfred Prammer (TTTech)
<b>Gross performance 2020</b>	28 million Euros
<b>Global presences</b>	Austria, Italy and global HYDAC and TTTech presences
<b>Joint venture partners</b>	HYDAC International and TTTech Computertechnik AG

## Safe, scalable and future-proof solutions

TTControl's products build the technological heart of innovative machines like combine harvesters, excavators, snow groomers, lifting platforms and fire-fighting vehicles. TTControl improves safety and reliability of electronic systems in these machines and is also pioneering in making autonomous operation a reality. TTControl's hardware and software platforms enable equipment manufacturers to develop highly reliable electronic control systems in a quick and economical manner. TTControl always strives to meet today's most demanding needs while also being prepared for the future. As IoT and connectivity are becoming a trending topic for the mobile machinery sector, the latest additions to the TTControl portfolio include IoT gateways and complete out-of-the-box cloud management platforms with true plug-and-play functionality as well as connectivity platforms for the management of network architectures of vehicles and machines in rugged operating environments.

## Offering

Safety ECUs	I/O modules	Advanced platforms
HMI displays	Cloud and IoT solutions	Training & support

## Fields of application

 Material handling	 Agriculture & forestry	 Construction	 Municipal vehicles	 Special vehicles
